Who can participate?

- Primary Care Physicians
- Pediatricians
- Physician Assistants
- Nurse Practitioners

Make Fluoride Varnish (FV) Treatments Part of Your Early Childhood Visits!

- U.S. Preventative Services Task Force recommends that Primary Care Physicians apply FV to the primary teeth of all infants and children starting at the age of primary teeth eruption.¹
- Medical Billing Code: CPT 99188
- Easy to Use, Economically Priced
- Safe and well-tolerated by infants and special health care needs children.

Consider Fluoride Varnish as a Practice Building Procedure.

- Use the medical billing code **CPT 99188** – Application of topical fluoride varnish by a physician or other qualified health care professional. Refer to insurance provider and your State's guidelines for specific reimbursement rates in your area.
- Start an active fluoride varnish program with Tastytooth in your office to generate additional income.

For revenue models, state reimbursement information, post-treatment patient care instructions, and additional resources, please visit medical.premusa.com/tastytooth
